Instructional Focus:

Reading – Students read a variety of grade level materials, applying strategies appropriate to various situations.

Performance Task

The teacher will prepare a chart containing simple phrases from books students are reading (such as the unhappy rabbit, a lost boy, cold winter weather, in the forest) written going down the side of the chart and question words (who, what, where, when, why, and how) going across the top of the chart. The students are asked to match the phrase with the correct question words by plotting an x under the correct question word. The students will then work in groups to prepare phrase charts based on their current reading for another group to complete, modeling after the teacher copy. A follow-up lesson includes looking at a newspaper advertisement and highlighting the information which answers the who, what, where, when, why and how questions.
